high performance PVCu folding sliding doors to **bring the outside in**

Bring the outside in

Stunning designs and the feeling of more space will enhance your lifestyle and improve the value of your home

Our superb collection of folding sliding doors offers market-leading aesthetics, engineering and value. With a choice of designs and guaranteed high-quality performance, they bring you the space, comfort and low-maintenance luxury of modern living.

Imagine wide open spaces, allowing air and light to flood into your home, instantly creating a contemporary look and feel. Our new folding sliding doors will add the 'wow' factor to your home and can be fitted wherever you need easy access to your patio or garden, or need a divider between two rooms to allow you to create a more continuous space when you need it.

No wonder more and more people are choosing our PVCu folding sliding doors to add that extra dimension to their homes. The collection offers ultra slim frames for eye-catching looks, clever new design features and a wide range of colours to suit every home perfectly.

In short, our new folding sliding doors are superior to any other similar PVCu products you'll find on the market today.

Easier, smoother operation

Each folding sliding door has a built-in four-rail aluminium roller track so that it glides open or closed smoothly and effortlessly.

The unique D-shaped interior handle allows the doors to fold back flatter, so when they're open they look much neater and won't distract from the beautiful view of your patio or garden.

Plus, the D-handle has an intelligent anti-mishandling feature which stops your floor from being scraped by the shoot bolts, and it protects the bolts from being damaged and needing replacement – the main cause of repairs on folding sliding doors.

Extra security

We know that security of your home is always vitally important, so we've included stainless steel anti-jemmy pins in our door design. This means that the door can't be removed from the outside by intruders trying to get into your home. These pins are enclosed in the roller track for maximum security.

Even more streamlined

Our folding sliding doors have been designed with slimmer, uncluttered sightlines to make them less obtrusive. This means that you see less of the doors and more of your patio, garden or the interior of your home.

We've also incorporated a new trim to hide the seals between the door leaves. This adds to the whole aesthetic look and feel of your new doors, as you won't see a line of black seal between the doors when they're closed. To complete the clean, simple lines of your new doors, we also give you the option of a flush-fitting low threshold below the doors (internal only).

Slimmer sightlines

Gaskets are hidden with a patented trim

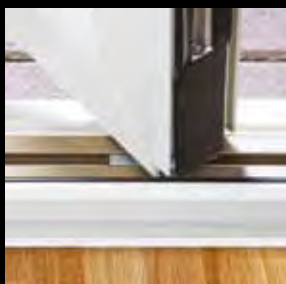

Warm in winter

Folding sliding doors create the perfect summer ambience, but it's just as vital that they can withstand the harsh British winter.

Our PVCu doors are manufactured with a square-edge profile which gives a superior seal along door edges, making them draught and weatherproof.

Tested to BS6375-1:2009 (Performance of Windows and Doors), our doors far exceed the minimum requirements set out for the most extreme weather test.

They also meet the British Standard minimum requirements for the construction, security, safety, weather-tightness and strength of performance. This means behind their striking looks, your folding sliding door is robust and built to last – giving many years of pleasure.

Bespoke British designed hardware

A wider choice of colours...

Our new folding sliding doors come in a wide range of colours and finishes. With this choice of contemporary colours and styles, you can create a look that is perfect for your home. Whether you want to match your existing décor, or make a bold contrast, our new folding sliding doors are a stylish way to bring indoor and outdoor living together.

Our bespoke, British-designed hardware is available in the following options:

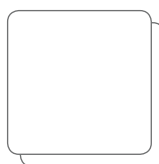

White

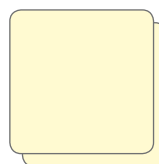

Black

Frame colours

White

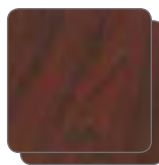

Cream

Golden Oak

Black Ash White interior

White Ash

Grey White interior

Simpler to fit

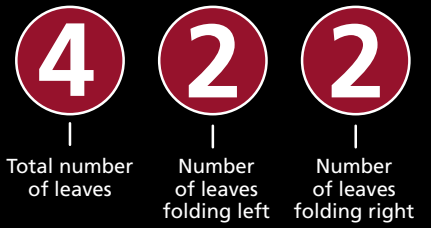

We've made our new door range easy to install thanks to a slim-stepped outer frame which contains all the door hardware inside the frame. There's no need to cut plaster or make alterations in your home to make sure the doors fit. The benefit to you is minimal disruption and mess in your home when they're installed.

The hardware itself is bespoke and British-designed and assembled, available in black or white finishes with a five-year guarantee.

Configuration options

Because every home is unique, we offer a choice of folding options, allowing you to choose how your door works. This maximum versatility helps you to enjoy and expand your home in the way that works best for you.

How configurations work:
